

Stephen James Standing for NEA Director

NEA Director will

- Be responsible for transmitting reports of NEA actions to the Association Board of Directors;
- Assist in interpreting NEA policies and services to Association members;
- Represent the concerns of the Association to the NEA Board of Directors

Reputation: It has been my privilege to serve as a Faculty Representative, a Faculty Representative spokesperson, and a Division Representative for the Association. I encourage you to speak to anyone who knows me. I stand by my record, and I represent all members without exception.

Experience: I believe that having substantial experience as an advocate and a leader is very important. I have worked in both the DDESS and Dodds school systems and understand the unique needs of members in each system. This will be crucial to someone representing our interests and serving on the FEA Board of Directors.

A Dedication to Unity: I wish my opponent good luck. Elections come and go, but it is our dedication and commitment to each other which sustains us during these difficult times.
